

SMART UNIVERSITY MANAGEMENT SYSTEM

SUMS

Project Scope and Requirements Elicitation Baseline

Large-Scale Project Programming

SUMS_Project_Scope_and_Requirements_Elicitation_Baseline_v1.0

Document Status	Approved Baseline
Version	1.0
Approval Authority	Master Project Control
Institution Display Name	University of Palestine / جامعة فلسطين
Scope	Charter, scope, boundary, stakeholders, capabilities, elicitation outcomes, assumptions, risks, decisions, and traceability

This baseline defines the project scope and approved elicitation outcomes. It does not yet define final functional or non-functional requirements, use cases, database entities, classes, UI screens, architecture, technology stack, or implementation.

Document Control

Field	Value
Document title	SUMS Project Scope and Requirements Elicitation Baseline
File name	SUMS_Project_Scope_and_Requirements_Elicitation_Baseline_v1.0
Project	Smart University Management System (SUMS)
Institution display name	University of Palestine / جامعة فلسطين
Course	Large-Scale Project Programming
Version	1.0
Status	Approved Baseline
Owner	SUMS Project Team
Approval location	00 — Master Project Control
Primary reference	Approved Course Knowledge Baseline v1.0
Official scope sources	final project.pdf; Project list.pdf
Language	English for formal project documentation
Prepared date	12-07-2026
Approval date	12-07-2026

Approval Record

Role	Name	Decision	Date	Notes
Project Team Representative	SUMS Project Team	Approved	12-07-2026	Required corrections applied and final baseline accepted.
Master Project Control	Master Project Control	Approved	12-07-2026	Final approval of Scope and Requirements Elicitation Baseline v1.0.
Course Instructor / Evaluator	—	Not requested	—	Internal project baseline unless instructor approval is later required.

Revision History

Version	Date	Status	Summary
0.1	11-07-2026	Working content	Scope and elicitation content developed iteratively in Master Project Control.
1.0	12-07-2026	Superseded Candidate	Previously issued as Approval Candidate; submitted for Master Project Control review and superseded by v1.0-RC2 after the decision Approve with Required Changes.
1.0-RC2	12-07-2026	Superseded Review Version	Previously issued as Review Candidate - Changes Required; applied Master Project Control corrections: CAP-01-CAP-70 prioritization, deadline-time correction with ASM-12, preliminary performance-target classification, configurable demonstration-name confirmation, and DEC-230-DEC-233.

Version	Date	Status	Summary
1.0	12-07-2026	Approved Baseline	Final approved publication version after applying all required release-priority, deadline, preliminary performance-target, configurable demonstration-name, and approval-state corrections.

Source Authority and Conflict Resolution

1. Official assignment instructions in final project.pdf have the highest authority for team size, process obligations, originality, submissions, and deadline.
2. Project list.pdf is authoritative for the selected project title and its short official scope statement.
3. Approved Course Knowledge Baseline v1.0 is the official course-reference baseline for concepts, rules, classifications, and workflow.
4. Approved project decisions in Master Project Control govern SUMS scope and domain policy unless they conflict with a higher-authority official source.
5. Approved assumptions may be used only while their status remains valid; pending assumptions must be verified when possible.
6. Any new official instructor instruction supersedes conflicting internal decisions only through documented change control.
7. project example.pdf and lecture examples are illustrative; they do not silently create SUMS requirements.

Classification Legend

Classification	Meaning
Officially Required	Explicitly stated in final project.pdf or Project list.pdf.
Official Core	A product area named in the official SUMS description.
Necessary for the System	Required for a coherent, testable, maintainable implementation of the approved scope.
Professional Addition	Improves engineering quality or product completeness but is not a separately listed official deliverable.
Future Enhancement	Deferred and excluded from Release 1.0 unless approved by change control.
Approved Project Decision	A policy or scope interpretation approved in Master Project Control.
Assumption	Information accepted for planning because an official source does not define it; status must be tracked.

Document Purpose and Boundaries

- Create a stable project charter, scope, system boundary, stakeholder register, and high-level capability map.
- Record elicitation outcomes, assumptions, risks, decisions, and official-source traceability.
- Distinguish official scope, necessary supporting scope, professional additions, out-of-scope items, and future enhancements.
- Provide the approved input for the later SRS and requirements baseline.
- Do not create final FR/NFR, Use Cases, database entities, classes, UI screens, architecture, technology stack, or implementation.

Contents

- 1. Executive Summary
- 2. Official Project Basis and OCR Review
- 3. Project Charter
- 4. Vision, Problem Statement, Objectives, and Success Criteria
- 5. Scope Baseline
- 6. System Boundary
- 7. Stakeholder Register
- 8. High-Level Capability Map
- 9. Requirements Elicitation Outcomes
- 10. Requirements Elicitation Question Log
- 11. Assumptions Log
- 12. Risk Register
- 13. Decisions Log
- 14. Source and OCR Traceability
- 15. Baseline Approval and Next-Phase Gate
- Appendix A. Academic Grading and GPA Tables
- Appendix B. Glossary
- Appendix C. Source Map and Preservation Rules

Controlled Identifier Summary

Identifier Set	Range / Count	Status
Official Course Requirements	OCR-01-OCR-29 (29)	Inherited approved baseline.
Stakeholders	STK-01-STK-11 (11)	Approved stakeholder catalog.
High-Level Capabilities	CAP-01-CAP-70 (70)	Approved capability catalog with Release 1.0 priorities; only Must capabilities are mandatory.
Assumptions	ASM-01-ASM-12 (12)	Approved or tracked according to their recorded status.
Risks	RSK-01-RSK-15 (15)	Approved risk register; open risks remain monitored.
Decisions	DEC-15-DEC-233 (219)	Approved and clarified project decisions.

1. Executive Summary

This document is the approved Project Scope and Requirements Elicitation Baseline for the Smart University Management System (SUMS). It is governed by the Approved Course Knowledge Baseline v1.0 and the official assignment sources. The product is planned as a modern web application for one generic university. University of Palestine / جامعة فلسطين is an intentional configurable demonstration name only and does not claim the policies, endorsement, identity, or data of a real institution.

The official SUMS description names seven core areas: students, instructors, courses, registration, grading, attendance, and academic reports. Elicitation produced the approved CAP-01-CAP-70 capability catalog. Release prioritization now distinguishes committed Must scope from Should and Could scope; only Must capabilities are mandatory for Release 1.0, while Should follows completion of all Must scope and Could is attempted only if time and feasibility permit.

Key Baseline Results

- One university only; generic academic model; web application; no public portal or mandatory external integrations.
- University Registrar / Academic Affairs Representative is the virtual Product Owner and final university-wide academic authority.
- STK-01-STK-11 define project and operational stakeholders; CAP-01-CAP-70 form the approved high-level capability catalog. Only capabilities prioritized Must are mandatory for Release 1.0.
- Registration is student-driven, rule-validated, and subject to mandatory advisor approval, with authorized staff intervention. Waitlist management is prioritized Should and automatic promotion is prioritized Could.
- Attendance uses per-session statuses, a 75% general threshold, late conversion, and stricter laboratory rules.
- Assessment uses configurable weights and a 4.00 credit-weighted GPA; letter grades are relative to section performance with defined absolute fallbacks and a 45/100 fail floor.
- Academic records preserve all attempts, official changes, transcripts, standing, degree progress, and graduation approval history.
- Access is role-based, scope-limited, and audited. Bilingual/RTL support is prioritized Should. The 3-second, 10-second, and 500-concurrent-user values remain preliminary proposed targets pending architecture and technical feasibility validation.
- No capability identifier or meaning may be silently removed. Delivery priority may change only through change control; Must scope is committed, while Should and Could scope remain feasibility-dependent.
- The Scope and Requirements Elicitation phase is completed. The next authorized phase is the SRS and Requirements Baseline. This approval does not authorize implementation; UML, detailed design, architecture, technology selection, database design, UI/UX, and code remain gated by their later approved phases.

Approval Status

Master Project Control reviewed the earlier candidate, required feasibility and prioritization corrections, verified their completion, and approved this document as the authoritative Scope and Requirements Elicitation Baseline v1.0 on 12-07-2026. The Scope and Requirements Elicitation phase is completed, and the next authorized phase is the SRS and Requirements Baseline. This approval does not authorize implementation; UML, detailed design, architecture, technology selection, database design, UI/UX, and code remain gated by their later approved phases.

2. Official Project Basis and OCR Review

Official Project Description

“A comprehensive platform to manage students, instructors, courses, registration, grading, attendance, and academic reports.”

The statement establishes seven official scope areas but does not define workflows, roles, permissions, academic policies, quality targets, or implementation mechanisms. All additional detail in this baseline is therefore linked to an approved decision or assumption rather than presented as an unstated official requirement.

Official Course Requirements Summary

- Team of 3-4 students with equal contribution and explainable work.
- Use SDLC, Software Engineering, OOP, a relational database, and a clear user-friendly interface.
- Develop a complete original application with professional documentation and demonstration.
- Submit source code, PDF report, SQL file, slides, conditional video, repository link if available, and one ZIP.
- Official submission deadline: 30-07-2026. The official source specifies the date only; the exact submission time and applicable timezone remain pending confirmation under ASM-12.

OCR-01-OCR-29 Review Matrix

ID	Official Requirement	Source	Page	Baseline Effect / Evidence	Trace
OCR-01	Select one project from the provided list.	final project.pdf	p.1	Completed: SUMS selected.	Charter; DEC-17
OCR-02	The selected project is Smart University Management System.	Project list.pdf	p.1	Fixed project identity.	Charter; Scope
OCR-03	SUMS covers students, instructors, courses, registration, grading, attendance, and academic reports at description level.	Project list.pdf	p.1	Official core scope and capability baseline.	Scope; CAP-01-CAP-70
OCR-04	The assigned project cannot be changed.	final project.pdf	p.1	Project identity is controlled.	Charter; DEC-17
OCR-05	Team consists of 3-4 students.	final project.pdf	p.1	Team constraint; details deferred.	ASM-11; DEC-229
OCR-06	All members are expected to contribute equally.	final project.pdf	p.2	Later responsibility allocation and contribution evidence.	Risks; DEC-229
OCR-07	Analyze real-world software requirements.	final project.pdf	p.1	This baseline performs scope analysis and elicitation.	All sections
OCR-08	Apply Software Engineering principles.	final project.pdf	p.1	Governance, decisions, assumptions, risks, and traceability.	DEC/ASM/RSK logs
OCR-09	Follow the SDLC.	final project.pdf	p.2	Implementation remains gated until later approvals.	Boundary; Approval Gate
OCR-10	Design professional UML diagrams.	final project.pdf	p.1	Deferred to later design phases.	Out of this baseline
OCR-11	Apply OOP throughout implementation.	final project.pdf	p.2	Official implementation constraint; no stack selected here.	Charter constraints
OCR-12	Use a relational database.	final project.pdf	p.2	Official implementation constraint; no entities/schema here.	Charter constraints
OCR-13	Develop a complete software application.	final project.pdf	p.1	Defined as end-to-end approved Release 1.0 scope.	DEC-27; Scope
OCR-14	Provide a clear, user-friendly interface.	final project.pdf	p.2	Bilingual responsive web direction; screens deferred.	DEC-19; DEC-97-100; DEC-177-178
OCR-15	Work effectively as a software development team.	final project.pdf	p.1	Team exists; assignments deferred; GitHub approved.	DEC-20; DEC-229; RSK-02/04/15
OCR-16	Prepare professional software documentation.	final project.pdf	p.1	This approved baseline provides controlled professional documentation and authoritative input for the SRS and later project phases.	Document control; Traceability
OCR-17	Present and demonstrate the developed system.	final project.pdf	p.1	Demo-ready end-to-end scope and test dataset planned.	ASM-01; ASM-10
OCR-18	All submitted work must be original.	final project.pdf	p.2	Original project artifacts and fictional data only.	ASM-02; Risks
OCR-19	Copying from previous semesters, Internet, GitHub, or other groups is prohibited.	final project.pdf	p.2	Originality constraint across all artifacts.	Charter constraints
OCR-20	Every group member should be able to explain the part developed.	final project.pdf	p.2	Team knowledge transfer and review risk controls.	RSK-15
OCR-21	GitHub is encouraged for version management and collaboration.	final project.pdf	p.2	Adopted as internal project requirement.	DEC-20
OCR-22	Submit Project Source Code.	final project.pdf	p.2	Final deliverable obligation.	Charter deliverables
OCR-23	Submit Project Report in PDF.	final project.pdf	p.2	Final report obligation; this baseline feeds the report.	Charter deliverables
OCR-24	Submit SQL Database File.	final project.pdf	p.2	Final database deliverable; design deferred.	Charter deliverables
OCR-25	Submit Presentation Slides in PowerPoint or PDF.	final project.pdf	p.2	Final presentation deliverable.	Charter deliverables
OCR-26	Submit Demonstration Video if requested.	final project.pdf	p.2	Expected but still awaiting official confirmation.	ASM-01

ID	Official Requirement	Source	Page	Baseline Effect / Evidence	Trace
OCR-27	Provide GitHub Repository Link if available.	final project.pdf	p.2	Repository link expected because GitHub is adopted.	DEC-20
OCR-28	Compress all files into one ZIP and upload to the course platform.	final project.pdf	p.2	Final packaging obligation.	Charter deliverables
OCR-29	Deadline is 30-07-2026.	final project.pdf	p.2	Official deadline date is 30-07-2026; exact submission time and timezone are not specified in the source.	Charter; ASM-12; DEC-231

3. Project Charter

Project Title	Smart University Management System
Acronym	SUMS
Institution Display Name	University of Palestine / جامعة فلسطين
Course	Large-Scale Project Programming
Project Type	Academic software engineering project
Product Type	Modern responsive web application; bilingual/RTL support is prioritized Should
Institution Model	One generic university
Primary Product Owner	University Registrar / Academic Affairs Representative
Project Approval Authority	Master Project Control
Official Team Constraint	3-4 students; equal contribution
Current Team Status	Team exists; names and assignments deferred before detailed design/implementation
Target Deadline	30-07-2026 (official date only); exact time/timezone pending confirmation
Repository Direction	GitHub adopted for version control and collaboration
Budget	Not specified; no paid external integration is required by Release 1.0

Project Purpose

To analyze, design, implement, test, document, and demonstrate a coherent academic management web application for a generic university, using the configurable demonstration name University of Palestine / جامعة فلسطين, while applying disciplined SDLC, object-oriented programming, a relational database, professional documentation, teamwork, and controlled quality practices.

Project Authority and Governance

- Official sources govern course obligations and deadlines.
- Master Project Control approves internal scope, assumptions, risks, decisions, baselines, and changes.
- The virtual University Registrar represents the primary functional perspective.
- New official instructor instructions are incorporated through change control.
- Implementation remains gated until SRS, use cases, architecture, database, and UI/UX decisions are approved.

High-Level Constraints

Constraint	Source / Decision
Fixed selected project: SUMS	OCR-02, OCR-04
One university and generic model	DEC-17, DEC-18
Modern web application	DEC-19
3-4 human students and equal contribution	OCR-05, OCR-06
SDLC before implementation	OCR-09; DEC-15
OOP and relational database in implementation	OCR-11, OCR-12
Clear, user-friendly responsive interface; bilingual/RTL support follows its approved Should priority	OCR-14; DEC-97-98,177-178
Original work and explainable contribution	OCR-18-OCR-20
No mandatory external integrations	DEC-26, DEC-136

Constraint	Source / Decision
No technology stack selected in this phase	DEC-15, DEC-19
Official deadline and final ZIP package	OCR-22-OCR-29

High-Level Deliverables

- Project source code.
- Project report in PDF.
- SQL database file.
- Presentation slides in PowerPoint or PDF.
- Demonstration video if requested.
- GitHub repository link if available.
- One validated final ZIP uploaded before the deadline.

4. Vision, Problem Statement, Objectives, and Success Criteria

Vision Statement

To provide a generic university with a coherent, modern, user-friendly academic management web application, demonstrated under the configurable name University of Palestine / جامعة فلسطين, while integrating the committed academic lifecycle and remaining maintainable, auditable, secure, demonstrable, and aligned with disciplined Software Engineering.

Problem Statement

The official project description identifies several interdependent academic areas but does not define their detailed workflows, stakeholders, permissions, business rules, release boundary, priorities, quality targets, or acceptance conditions. The project must transform that short description into a realistic, traceable, implementable, and testable scope for a 3-4 student team without inventing hidden university policy or allowing uncontrolled feature growth. The approved scope must provide a stable foundation for the later SRS, UML, architecture, database, UI/UX, implementation, testing, documentation, and demonstration.

Project Objectives

ID	Objective
OBJ-01	Transform the official SUMS description into an approved and controlled project scope.
OBJ-02	Identify stakeholders, goals, capabilities, constraints, assumptions, risks, policies, and unresolved items before final requirements are created.
OBJ-03	Define an end-to-end Release 1.0 that covers all seven official areas and their necessary supporting capabilities.
OBJ-04	Establish traceability from OCR-01-OCR-29 and approved decisions to future requirements, designs, code, and tests.
OBJ-05	Deliver original, explainable, professionally documented work through controlled team collaboration.
OBJ-06	Complete, validate, package, present, and submit all mandatory deliverables before the official deadline.

Project-Level Success Criteria

ID	Success Criterion
SC-01	This baseline is reviewed and approved before the SRS or detailed design begins.
SC-02	All seven official core areas have defined current-release coverage without unsupported modules.
SC-03	Every later approved requirement and artifact can trace to an official need, approved decision, or approved assumption.
SC-04	The final system demonstrates OOP, a relational database, and a clear responsive web interface. Bilingual/RTL support applies only when the approved Should scope is delivered
SC-05	The report, diagrams, SQL, code, tests, and presentation describe the same approved release.

ID	Success Criterion
SC-06	All work is original, team contribution is controlled, and every member can explain the project.
SC-07	The complete mandatory package is validated and submitted by the official deadline date of 30-07-2026; the exact cutoff time and timezone remain pending confirmation.

5. Scope Baseline

Overall Product Scope

SUMS is planned as a modern web-based academic management system for one generic university, using University of Palestine / جامعة فلسطين as a configurable demonstration name. Release 1.0 commitment is limited to capabilities prioritized Must; Should and Could capabilities remain conditional on completion, schedule, architecture, and technical feasibility.

Official Core Scope

Area	High-Level Meaning	Source
Students	Manage student academic identity, status, profile, history, progress, and records.	OCR-03
Instructors	Manage instructor identity, status, assignments, sections, and academic operations.	OCR-03
Courses	Manage course catalog, credits, type, program placement, and academic rules.	OCR-03
Registration	Manage selection, validation, advisor approval, staff intervention, waitlists, add/drop, and withdrawal.	OCR-03
Grading	Manage assessments, grade calculation, approval, publication, correction, appeals, GPA, and standing.	OCR-03
Attendance	Manage sessions, statuses, percentages, warnings, laboratory rules, and attendance bars.	OCR-03
Academic Reports	Provide scoped reports, dashboards, transcripts, analytics, and closed-term snapshots.	OCR-03

Necessary Supporting Scope

- University academic organization and programs.
- Study plans, required/elective courses, prerequisites, co-requisites, and degree progress.
- Academic terms, course sections, meeting schedules, rooms, laboratories, and conflict validation.
- Assessments, relative/absolute grading policy, GPA, standing, repeat rules, and graduation.
- Role-based access, user identity, scoped permissions, separation of duties, and records retention.

Professional Capabilities by Approved Release Priority

- In-app notifications and targeted announcements.
- Audit logs, login logs, export audit, and accountability.
- Waitlists and automatic eligible promotion.
- Grade appeals, program transfer, advising notes, delegated approvals, bulk import, backup/restore, bilingual/RTL support, and responsive access.

Release 1.0 Objective

Deliver a coherent, runnable, and testable web application covering the committed Must academic lifecycle. Graduation-readiness views, notifications, and other Should capabilities are delivered only after all Must scope is complete and stable.

Out of Scope

Excluded Area	Reason
Public admission applications and admission decisions	Student management begins after admission.
Human resources, payroll, recruitment, and employee performance	Non-academic university subsystem.
Finance, accounting, tuition, payments, scholarships, and financial holds	Financial systems are outside the approved boundary.

Excluded Area	Reason
Library, hostel, transport, clinic, research, alumni-service, security, asset, and facilities-management systems	Independent institutional systems.
Learning content, video lectures, assignment submission, online quizzes, forums, and virtual classrooms	Full LMS functionality is not part of SUMS Release 1.0.
Native mobile applications and offline operation	Responsive connected web only.
External SMS/email, payment, biometric, SSO, government, and LMS integrations	No external operational systems in Release 1.0.
Automatic timetable generation and optimization	Conflict validation only.
Real production migration, real personal data, 24/7 enterprise support, external certification, or real-university deployment	Academic project and fictional demo environment.
Final FR/NFR, Use Cases, database entities, classes, UI screens, architecture, stack, or code in this baseline	These belong to later approved phases.

Future Enhancements

Future Enhancement	Reason for Deferral
Online Admissions Portal	A separate large subsystem; current lifecycle starts after admission.
Tuition, Payments, Scholarships, and Financial Aid	Requires financial policies and payment integration.
Full LMS / Content Delivery	Would expand SUMS into e-learning, assignments, quizzes, video, and forums.
Native Android and iOS Apps	Responsive web is the approved current platform.
Multi-University / Multi-Tenant Operation	DEC-17 restricts Release 1.0 to one university.
Biometric, RFID, or Smart-Card Attendance	Requires external hardware and integration.
External Email and SMS Gateways	In-app notification is the approved current mechanism.
University SSO and External Identity Providers	No mandatory external integration in Release 1.0.
Government / National Education Integration	No official external interfaces are provided.
AI Academic Advisor or Chatbot	Not required for the approved academic workflow.
Predictive At-Risk Analytics	Requires historical data and analytical models.
Automatic Timetable Optimization	Only conflict checking is approved; automatic generation is excluded.
Digital Signature and QR Transcript Verification	Explicitly deferred from the current transcript scope.
Alumni Portal	Graduate read-only academic access is sufficient for Release 1.0.
Enterprise Multi-Data-Center Deployment	Outside academic-project operating scope.

6. System Boundary

Formal Boundary Statement

SUMS is a closed, web-based academic management application serving one generic university. The boundary includes approved academic data and workflows, role-based access, in-app communications, auditing, reporting, import, and backup functions. Human users interact through the web interface. External institutional systems, public services, hardware devices, payment services, communication gateways, learning-management platforms, and non-academic university services remain outside Release 1.0 unless added through approved change control.

Inside the Boundary

- Web application and relational data storage (later design).
- Academic organization, programs, plans, terms, courses, sections, schedules, rooms, and laboratories.
- Students, instructors, staff, roles, identity, permissions, profiles, and status-based access.

- Registration, advising, validation, holds, waitlists, add/drop, withdrawal, and exceptions.
- Attendance, laboratory rules, assessments, grading, GPA, records, transcripts, standing, and graduation.
- In-app notifications, announcements, dashboards, reports, exports, audit logs, attachments, bulk import, and backup/restore.

Outside the Boundary

- The university as a legal/organizational entity and its real-world governance.
- Public applicants and public admissions services.
- Financial, HR, payroll, library, LMS, clinic, transport, hostel, alumni-service, research, asset, and facilities systems.
- External email/SMS, payment, biometric, SSO, government, or LMS services.
- GitHub, course submission platform, team development computers, and other project tools.
- Native mobile applications, offline mode, and real production infrastructure.

Boundary Notes

- GitHub is a project-development tool, not part of the SUMS product boundary.
- The course upload platform and final ZIP process are external project-delivery mechanisms.
- There is no external operational actor or system actor in Release 1.0.
- The institution name is a configurable display value; the academic policy model remains generic.

7. Stakeholder Register

A stakeholder may influence, use, approve, operate, evaluate, or be affected by SUMS. The following register does not yet constitute the final UML actor list; actor identification will occur in the Use Case phase.

ID	Stakeholder	Category	Influence	Interest	Approved Responsibility / Concern	Trace
STK-01	University Registrar / Academic Affairs Representative	Primary business owner / virtual Product Owner	High	High	Final authority for university-wide academic policy, general exceptions, grade reopening, curriculum activation, graduation approval.	DEC-22, 127-130, 134
STK-02	Academic Affairs and Registration Staff	Operational academic administration	High	High	Manage official student records, registration operations, holds, withdrawals, and official transcripts; cannot directly alter grades.	DEC-40, 117
STK-03	System Administration and IT Support	Technical operations and support	High	Medium	Manage accounts, roles, settings, login logs, backup/restore, and technical support; no academic decision authority.	DEC-43, 106, 118
STK-04	Department Head	Department academic authority	High	High	Approve sections, assignments, department exceptions, grades, appeals recommendations, makeup laboratories, and department reports.	DEC-37, 41, 120, 128-130
STK-05	Academic Program Coordinator	Program governance	Medium-High	High	Manage study plans, course classifications, prerequisites/co-requisites, degree progress, and program statistics; changes require Department Head approval.	DEC-37, 119, 129
STK-06	Academic Advisor	Student advising and registration reviewer	High	High	Mandatory registration approval, review student plans and exceptions, access assigned students, and maintain advising notes.	DEC-38, 49, 67, 113, 121, 131
STK-07	Instructor	Academic delivery user	Medium-High	High	Manage assigned sections, attendance, assessments, grades, correction requests, and course history within scoped access.	DEC-39, 53, 70, 84, 122
STK-08	Student	Primary end user	High	High	Select courses, request registration, view attendance/grades/GPA/records, submit appeals and requests, and manage permitted profile data.	DEC-40, 49, 71, 99, 123
STK-09	University Management (including Dean)	Executive oversight	High	Medium	Read-only dashboards, aggregated reports, trends, and institutional indicators without direct record modification.	DEC-37, 42, 124
STK-10	SUMS Student Project Team	Project delivery stakeholder	High	High	Analyze, design, implement, test, document, integrate, and prepare the final submission.	OCR-05-06, 15, 20; DEC-229
STK-11	Course Instructor / Project Evaluator	Academic project authority	High	Low operational	Evaluate course compliance and deliverables; new official instructions supersede internal decisions through change control.	DEC-44, 135

Stakeholder Authority Summary

Role	Authority Boundary
University Registrar	Final university-wide academic policy, general exception, official record, graduation, reopening, and curriculum activation authority.
Department Head	Department/course exceptions, section/results approval, instructor assignment, late attendance changes, makeup labs, appeal recommendation.
Program Coordinator	Plan and program governance proposals, degree progress confirmation, program statistics.
Academic Advisor	Mandatory registration review, student plan guidance, recommendation, and assigned-student notes.
Registration Staff	Operational records, registration actions, holds, status after approval, official transcript issuance; no direct grade change.
System Administrator	Technical accounts, roles, logs, settings, backups, restore; no academic decision authority.
University Management / Dean	Read-only institutional analytics and reports.

8. High-Level Capability Map

Capabilities describe what the product may support at a high level. CAP-01-CAP-70 are the approved capability catalog, not final requirements. Release priority controls commitment: only Must capabilities are mandatory for Release 1.0. Each capability must later be decomposed into approved FR, NFR, BR, SEC, and UC identifiers during the authorized SRS and Requirements Baseline phase.

Release Priority Legend

CAP-01-CAP-70 form the approved capability catalog. Only Must capabilities are mandatory for Release 1.0. Should capabilities are scheduled only after all Must scope is complete; Could capabilities are attempted only if time and technical feasibility permit; Future capabilities are excluded from Release 1.0. No capability identifier or meaning is deleted or renumbered by this prioritization.

Priority	Meaning
Must	Committed and mandatory for Release 1.0.
Should	Planned only after all Must scope is complete and stable.
Could	Optional; implemented only if time and feasibility permit.
Future	Excluded from Release 1.0 and requires later change approval.

ID	Capability Group	High-Level Coverage	Class	Primary Stakeholders	Source Decisions	Release Priority
CAP-01	Academic Organization Management	Manage the university, colleges, departments, and academic programs.	Necessary	STK-01,04,05,09	DEC-45	Must
CAP-02	Curriculum and Study Plan Management	Manage required/elective courses, credits, levels, prerequisites, and program plans.	Necessary	STK-04,05,06	DEC-46	Must
CAP-03	Academic Term Management	Manage semesters, dates, registration windows, add/drop, withdrawal, and status.	Necessary	STK-01,02,04	DEC-47, 138-139	Must
CAP-04	Course Offering and Section Management	Create and manage course offerings, sections, instructors, capacity, time, place, and status.	Necessary	STK-02,04,05,07	DEC-48	Must
CAP-05	Schedule Conflict Validation	Detect student and instructor schedule conflicts without automatic timetable generation.	Necessary	STK-02,04,06,07,08	DEC-48, 50	Must
CAP-06	Student Registration and Advising	Support student selection, rule checks, advisor approval, confirmation, and authorized staff intervention.	Official Core	STK-02,06,08	DEC-49	Must
CAP-07	Registration Rules and Exceptions	Validate prerequisites, credit limits, capacity, student/term status, holds, and approved exceptions.	Necessary	STK-01,02,04,06,08	DEC-41, 50, 109, 128	Must
CAP-08	Section Waitlist Management	Join, order, validate, and promote eligible students from section waitlists.	Professional	STK-02,06,08	DEC-51, 69, 141, 150-151	Should
CAP-09	Attendance Management	Record attendance per session and calculate attendance percentages.	Official Core	STK-07,08,04	DEC-52	Must
CAP-10	Assessment and Grade Workflow	Manage assessments, draft grades, submission, approval, publication, and locking.	Official Core	STK-07,04,01,08	DEC-53	Must
CAP-11	In-App Notification Management	Deliver academic notifications within the system.	Professional	All operational stakeholders	DEC-24,54,85	Should

ID	Capability Group	High-Level Coverage	Class	Primary Stakeholders	Source Decisions	Release Priority
CAP-12	Student Lifecycle Management	Manage Active, Suspended, On Leave, Graduated, and Withdrawn states.	Necessary	STK-01,02,06,08	DEC-55	Must
CAP-13	Student Academic Profile	Maintain program, level, admission date, advisor, status, credits, and GPA information.	Official Core	STK-02,06,08	DEC-56	Must
CAP-14	Course Catalog Management	Maintain course code, name, credits, department, level, type, description, and academic rules.	Official Core	STK-04,05,02	DEC-57	Must
CAP-15	Instructor Status and Assignment Control	Manage instructor status and prevent new assignments to non-active instructors.	Official Core	STK-03,04,07	DEC-58	Must
CAP-16	Attendance Policy Management	Apply general, laboratory, late, excused, warning, and barred-attendance rules.	Necessary	STK-07,04,01,08	DEC-59-61,76,143,152-153	Must
CAP-17	Academic Record Management	Maintain semester results, cumulative records, attempts, statuses, credits, GPA, and eligibility.	Necessary	STK-01,02,06,08	DEC-62	Must
CAP-18	Transcript Management	Provide unofficial student transcripts and official staff-issued transcripts.	Official Core	STK-02,08,01	DEC-63, 212-214	Must
CAP-19	Academic Reporting	Provide performance, registration, enrollment, attendance, grades, GPA, graduation, teaching-load, and program reports.	Official Core	All by scope	DEC-64	Must
CAP-20	Audit and Accountability	Track sensitive operations, changes, reasons, success/failure, and authorized review.	Professional	STK-01,03,04,02	DEC-65	Must
CAP-21	Academic Standing Management	Determine Good Standing, Warning, Probation, and dismissal recommendations.	Necessary	STK-01,02,06,08	DEC-66,217-218	Must
CAP-22	Restricted Registration Management	Apply reduced loads and approval requirements for Warning/Probation students.	Necessary	STK-06,08,02	DEC-67,81,219	Must
CAP-23	Add, Drop and Withdrawal Management	Manage add/drop, withdrawal with W, deadlines, and approved late exceptions.	Official Core	STK-02,06,08	DEC-68,139	Must
CAP-24	Automatic Waitlist Enrollment	Automatically register the first eligible waitlisted student when a seat becomes available.	Professional	STK-02,06,08	DEC-69,132,141,188,190	Could
CAP-25	Grade Correction Management	Process approved corrections with audit history and automatic GPA recalculation.	Necessary	STK-07,04,01,02	DEC-70,211	Must
CAP-26	Grade Appeal Management	Support student grade appeals and final decisions.	Professional	STK-08,07,04,01	DEC-71,82-83,220-221	Should
CAP-27	User Account and Access Management	Manage unique accounts, passwords, roles, states, logout, and reset.	Necessary	STK-03,All users	DEC-72,77,80,157-164	Must
CAP-28	Multi-Role Authorization	Allow one account to hold multiple authorized roles.	Necessary	STK-03,04,05,06,07	DEC-74	Must
CAP-29	Report Viewing and Export	View reports and export PDF, Excel, or CSV according to permission.	Professional	All by scope	DEC-75,166,186	Should
CAP-30	Laboratory Attendance Exceptions	Manage unexcused limit, excused absence approval, and makeup laboratory outcomes.	Necessary	STK-07,04,08	DEC-76,84,143	Must
CAP-31	Summer Semester Management	Support summer terms with approved credit limits.	Necessary	STK-01,02,06,08	DEC-87,138,219	Must
CAP-32	Co-requisite Validation	Validate co-requisites at registration and withdrawal.	Necessary	STK-05,06,08	DEC-88,200	Must
CAP-33	Course Delivery Type Management	Classify courses as theoretical, practical/laboratory, or mixed.	Necessary	STK-04,05,07	DEC-89	Must

ID	Capability Group	High-Level Coverage	Class	Primary Stakeholders	Source Decisions	Release Priority
CAP-34	Course Repeat and Improvement	Support repeat attempts, GPA effects, and approval after the permitted limit.	Necessary	STK-02,06,08	DEC-30,90,197-199	Must
CAP-35	Degree Progress and Audit	Show plan completion, remaining courses/credits, and graduation readiness.	Professional	STK-05,06,08,02	DEC-91	Should
CAP-36	Eligible Course Identification	Calculate rule-based courses the student is eligible to register.	Professional	STK-06,08	DEC-92	Should
CAP-37	Semester Closure	Finalize results, standing, degree progress, and lock semester records.	Necessary	STK-01,02,04,05	DEC-93,215	Must
CAP-38	Role-Based Dashboards	Provide dashboards appropriate to each major role.	Professional	All direct users	DEC-94	Should
CAP-39	Authorized Search and Filtering	Search and filter allowed data within the user scope.	Necessary	All direct users	DEC-95	Must
CAP-40	Student and Course Bulk Import	Import student and course data from CSV/Excel.	Professional	STK-02,03,05	DEC-96,116,171	Should
CAP-41	Multilingual System Support	Support Arabic and English.	Professional	All users	DEC-97	Should
CAP-42	Bidirectional Interface Support	Support Arabic RTL and English LTR.	Professional	All users	DEC-98	Should
CAP-43	User Profile Management	Allow permitted contact/profile updates while protecting official data.	Necessary	All users,STK-02	DEC-99	Must
CAP-44	Profile Image Management	Allow optional profile images with authorized moderation.	Professional	All users,STK-02	DEC-100	Could
CAP-45	Academic Program Transfer	Process transfers between academic programs.	Professional	STK-08,06,05,02,01	DEC-101	Should
CAP-46	Transfer History and Plan Re-evaluation	Preserve old program history and re-evaluate applicable courses in the new plan.	Necessary	STK-05,02,06,08	DEC-102	Should
CAP-47	Student Leave Management	Manage leave period, reason, registration restriction, and reactivation.	Necessary	STK-02,01,08	DEC-103	Must
CAP-48	Student Suspension Management	Manage suspension reason, duration, restrictions, and approved reactivation.	Necessary	STK-01,02,08	DEC-104	Must
CAP-49	Account and Record Archiving	Preserve historical records while restricting new operations.	Necessary	STK-03,02,08,07	DEC-105,125-126	Must
CAP-50	Backup and Restore	Create and restore backups under authorized administration.	Professional	STK-03	DEC-106,167-170	Could
CAP-51	Controlled System Access	Restrict access to approved accounts; no public portal.	Necessary	All users	DEC-107	Must
CAP-52	Employee Identity and Login	Use unique Employee ID and password for staff and instructors.	Necessary	STK-03,02,04,05,06,07,09	DEC-108,225	Must
CAP-53	Registration Hold Management	Apply academic, disciplinary, missing-document, and administrative holds.	Necessary	STK-01,02,06,08	DEC-109	Must
CAP-54	Course Section Cancellation	Cancel sections, notify affected users, and handle registrations.	Necessary	STK-04,02,07,08	DEC-110,201	Must
CAP-55	Instructor Reassignment	Reassign section instructors with approval, notification, and audit history.	Necessary	STK-04,07,02	DEC-111	Must
CAP-56	Room and Laboratory Scheduling	Manage buildings, rooms, laboratories, capacities, types, and conflicts.	Necessary	STK-02,04,07	DEC-112,140	Must

ID	Capability Group	High-Level Coverage	Class	Primary Stakeholders	Source Decisions	Release Priority
CAP-57	Academic Advising Notes	Maintain private advising notes and optional student-facing summaries.	Professional	STK-06,02,08	DEC-113	Should
CAP-58	Academic Announcements	Publish targeted in-app academic announcements.	Professional	STK-01,02,04,05,07,09	DEC-114	Should
CAP-59	Temporary Approval Delegation	Delegate defined approval operations for a limited period and scope.	Professional	STK-01,04,02	DEC-115,133	Could
CAP-60	Validated Bulk Import	Preview, validate, report, and partially import valid rows.	Professional	STK-02,03,05	DEC-116,171	Could
CAP-61	Operational Student Record Administration	Manage official records, registration operations, holds, and official transcripts.	Necessary	STK-02	DEC-117	Must
CAP-62	Technical and Academic Separation of Duties	Prevent technical administrators from performing academic decisions.	Necessary	STK-03,01,04,02	DEC-118	Must
CAP-63	Academic Program Governance	Govern study plans, rules, approvals, and historical versions.	Necessary	STK-05,04,01	DEC-119,129	Must
CAP-64	Department Academic Oversight	Oversee sections, instructors, exceptions, attendance, grades, and department reports.	Necessary	STK-04	DEC-120	Must
CAP-65	Scoped Academic Advising Access	Restrict advisors to assigned students except approved temporary access.	Necessary	STK-06	DEC-121	Must
CAP-66	Scoped Instructor Access	Restrict instructors to assigned sections and read-only history.	Necessary	STK-07	DEC-122	Must
CAP-67	Student Data Isolation	Restrict each student to their own data and requests.	Necessary	STK-08	DEC-123	Must
CAP-68	Executive Read-Only Analytics	Provide read-only aggregated management dashboards and reports.	Professional	STK-09	DEC-124	Could
CAP-69	Graduate Academic Record Access	Allow graduates limited access to records, transcript, notifications, and profile.	Professional	STK-08	DEC-125	Should
CAP-70	Conditional Archived Account Access	Allow read-only or blocked access according to administrative deactivation reason.	Necessary	STK-03,02,01	DEC-126	Must

9. Requirements Elicitation Outcomes

The following domain policies are approved elicitation outcomes. They are not yet final Business Rules or Requirements; they will be converted into stable BR/FR/NFR/SEC identifiers during the SRS phase without changing their approved meaning unless a new decision is recorded.

9.1 Academic Organization, Curriculum, and Terms

Topic	Approved Outcome	Trace
Institution model	One university; generic academic policy model; University of Palestine / جامعة فلسطين is a configurable demonstration name only.	DEC-17,18,227,233
Hierarchy	University -> Colleges -> Departments -> Academic Programs.	DEC-45
Program plan	Required/elective courses, required credits, levels, prerequisites, co-requisites, and historical versions.	DEC-46,88,129
Course types	Theoretical, Practical/Laboratory, Mixed.	DEC-89
Credit hours	Whole numbers only.	ASM-06
Academic year	First Semester, Second Semester, Summer Semester; code YYYY-1/YYYY-2/YYYY-S.	DEC-138,148
Working days and time	Sunday-Thursday; Palestine time; Gregorian calendar.	DEC-137,147,176
Term windows	Registration, add/drop, withdrawal, appeal, and grade deadlines are configurable per term.	DEC-139,144
Semester closure	Finalize grades, GPA, standing, progress, reports, and lock records.	DEC-93,215

9.2 Sections, Scheduling, Rooms, and Instruction

Topic	Approved Outcome	Trace
Section identity	COURSECODE-SEMESTER-SECTION, e.g., CS101-2026-1-01.	DEC-173
Section data	Course, term, Primary Instructor/Co-Instructors, capacity, multiple meetings, room/lab, and status.	DEC-48; ASM-07-08
Instructor status	Active, On Leave, Inactive; new assignment requires Active.	DEC-58
Schedule validation	Detect student, instructor, room, and laboratory conflicts; no automatic timetable generation.	DEC-48,112
Capacity	Section capacity cannot exceed assigned room/lab capacity without approved exception.	DEC-140
Cancellation	Stop registration, record reason/date, notify; after start transfer students or cancel without W/GPA effect.	DEC-110,201
Reassignment	Department Head approval, preserve old/new instructor, notify, and audit.	DEC-111
Time/place change	Department Head approval, conflict recheck, notification, audit.	DEC-202

9.3 Registration, Advising, and Waitlists

Topic	Approved Outcome	Trace
Normal flow	Student selection -> system validation -> mandatory advisor approval -> confirmed registration; staff may intervene.	DEC-38,40,49
Rule checks	Prerequisite C, co-requisite, conflicts, capacity, load, term status, student status, holds, advisor approval.	DEC-50,88,109,142
No prerequisite override	Failure to obtain C in prerequisite blocks registration; no exception.	DEC-142
Enrollment states	Pending Advisor Approval, Registered, Waitlisted, Dropped, Withdrawn, Cancelled.	DEC-149
Add/drop/withdrawal	Add/drop without W; withdrawal later with W; late action needs approved exception.	DEC-68
Credit load	Regular minimum 18; GPA<3 max18; Good Standing GPA>=3 may choose 18-21; Warning/Probation max12; final-term approved lower load.	DEC-81
Summer load	General max9; Probation max6.	DEC-87,219
Waitlist order	First come, first served; precise time then University ID; last seat uses first completed registration.	DEC-141,188,190

Topic	Approved Outcome	Trace
Waitlist eligibility	May join despite potential load excess; promotion waits until eligible; no new advisor approval if previously approved.	DEC-150,132
Waitlist end	Automatic promotion ends with add/drop; later addition requires exception.	DEC-151
Advisor delay	Escalate to Department Head after two working days.	DEC-131
Holds	Academic, Disciplinary, Missing Documents, Administrative; no Financial Hold.	DEC-109
Repeat restrictions	Two additional attempts then Department Head approval; no parallel active attempt; one section per course per term.	DEC-197-199
Co-requisite withdrawal	Advisor review; apply relationship-specific effect.	DEC-200

9.4 Attendance and Laboratory Policy

Topic	Approved Outcome	Trace
Session statuses	Present, Absent, Late, Excused; Cancelled session excluded.	DEC-52,193
General threshold	Minimum attendance 75%.	DEC-59
Late rule	Every three Late records equal one absence.	DEC-152
Excused absence	Requires evidence/review/approval as needed; visible but excluded from effective absence.	DEC-153
Laboratory rule	At most one unexcused laboratory absence; excused absence may require makeup.	DEC-60,76
Mixed course	Theory percentage and laboratory absence rule calculated independently.	DEC-143
Warning/bar	Warning first; Attendance Barred after threshold breach and authorized approval.	DEC-61
Attendance edit	Instructor may edit for seven days; later change needs reason, Department Head approval, and audit.	DEC-192
Cancelled session	Retained as Cancelled, excluded from percentage, reason recorded, students notified.	DEC-193
Makeup laboratory	Instructor reviews; Department Head approves; Instructor records result.	DEC-84

9.5 Assessment, Relative Grading, GPA, and Appeals

Topic	Approved Outcome	Trace
Assessment weights	Default coursework20/midterm30/final50; approved alternatives total100.	DEC-35
Score precision	Assessment and raw scores support two decimals; exact raw value is used internally.	DEC-154-155
Letter points	A4.00, A-3.70, B+3.30, B3.00, B-2.70, C+2.30, C2.00, C-1.70, D+1.30, D1.00, F0.00.	DEC-29
Relative model	Use section mean and standard deviation, Z and T score, then approved letter thresholds.	DEC-29
Absolute fallback	Use absolute grading when fewer than10 completed numeric grades or standard deviation=0.	DEC-207-208
Fail floor	Raw score <45 is F regardless of relative result; low numeric scores still contribute to class statistics.	DEC-209,223
Population	Only completed final numeric grades; exclude W, I, incomplete cases.	DEC-222
Publication	Department Head approves; publish all section results together; then lock.	DEC-130,191
GPA	Credit-weighted 4.00; truncate to two decimals without rounding; truncated value drives rules.	DEC-28-29,156
Repeat	Last completed attempt counts in GPA; all attempts remain; earned credits once; repeat any passed course; limit applies.	DEC-30,90,197
W/I/PF	W no GPA/credit; I temporary then final/F; P at C-equivalent earns credit no GPA; F0 no credit.	DEC-31-32,145
Correction	Instructor request -> Department review -> Registrar approval -> audit -> recalculation.	DEC-70,211
Appeal	7 days; Student -> Instructor -> Department; Registrar final; outcome may raise/lower/same; no duplicate final appeal unless reopened.	DEC-71,82-83,220-221
Student statistics	After publish and at least10 students, show mean/high/low/letter distribution without identities.	DEC-210,224

9.6 Academic Standing, Records, Transfer, and Graduation

Topic	Approved Outcome	Trace
Standing	Good ≥ 2.00 ; Warning 1.50-1.99; Probation < 1.50 ; recalculate after closure.	DEC-66,218
Dismissal recommendation	After two consecutive Probation terms; never automatic.	DEC-217
Student states	Active, Suspended, On Leave, Graduated, Withdrawn; only Active registers normally.	DEC-55
Leave/suspension	Record reason/dates; block registration; approved reactivation; preserve history.	DEC-103-104
Program transfer	Support approved transfer; preserve old plan/history and re-evaluate new plan credit.	DEC-101-102
Academic record	All attempts, W/I/P/F, credits, GPA, standing, eligibility, fixed history.	DEC-62
Degree audit	Show required/earned credits, completed/remaining courses, percentage, eligibility.	DEC-91
Graduation eligibility	Complete program/required courses, $GPA \geq 2.00$, no required F or I, satisfy minimum-C rules.	DEC-33,205
Graduation statuses	Not Eligible, Potentially Eligible, Eligible, Approved for Graduation, Graduated.	DEC-203
Graduation workflow	System check -> staff review -> coordinator confirmation -> Registrar approval -> Graduated.	DEC-204
Fixed graduation data	Term, date, final GPA, program, total earned credits fixed after approval.	DEC-206

9.7 Identity, Access, Security, and Privacy

Topic	Approved Outcome	Trace
Student identity	University ID GYYYYNNNNN; sequence restarts yearly; 1 male/2 female prefix.	DEC-73,78-79
Employee identity	EYYYYNNNN.	DEC-225
Login	Students use University ID; employees use Employee ID; password required.	DEC-77,108
Account model	One unique account, multiple roles, Active/Locked/Disabled, status-based access.	DEC-72,74,163
Initial/reset password	Temporary password and mandatory change; reset after authorized identity verification.	DEC-80,161
Password/lockout	8+ with upper/lower/number/special; lock after 3 failures for 15 minutes; manual unlock available.	DEC-157-159
Session	Timeout after 30 minutes inactivity.	DEC-160
Role control	Authorized add/remove with reason/audit; user cannot self-assign roles.	DEC-162
Separation of duties	System Administrator cannot modify grades, GPA, or academic decisions.	DEC-118
Scoped access	Advisor assigned students, instructor assigned sections, student self-data, management read-only.	DEC-121-124
Archived access	Graduate limited read access; withdrawn/inactive access decided administratively.	DEC-125-126
Privacy	Minimize sensitive data in reports; never show passwords; restrict exports/attachments.	DEC-183,186,195
Errors	Localized, clear, non-technical user messages; technical details logged internally.	DEC-196

9.8 Notifications, Reports, Transcripts, and Audit

Topic	Approved Outcome	Trace
Notifications	In-app only; read/unread, time, link, severity, targeted delivery; default retention 2 years configurable.	DEC-54,85,165
Urgent notifications	Prominent display, read timestamp, sender read count.	DEC-194
Announcements	Target university, college, department, program, section, or role.	DEC-114
Report formats	In-app, PDF official outputs, Excel/CSV authorized analysis.	DEC-75
Report scope	Automatic role/data scope; student self, instructor own sections, department own unit, management aggregate.	DEC-216
Official PDF metadata	University, title, issue time, issuer, Official/Unofficial.	DEC-185
Transcript languages	Arabic or English; academic symbols unchanged.	DEC-212

Topic	Approved Outcome	Trace
Official transcript control	Unique number, issue time, issuer, Valid/Cancelled; cancel incorrect and reissue.	DEC-213-214
Closed-term snapshots	Preserve fixed final grade, registration, attendance, and standing reports.	DEC-215
Audit content	Actor, action, time, record, old/new values, reason, result; immutable to ordinary users.	DEC-65
Audit export	Authorized search/filter and PDF/CSV export; no modification/deletion.	DEC-166
Login log	Login/logout/result/account/lock reason; System Administrator only.	DEC-164

9.9 Data Import, Attachments, Backup, Integrity, and Operations

Topic	Approved Outcome	Trace
Bulk import	Students and courses; preview, validation, duplicate checks, row errors, valid-row partial import, final report.	DEC-96,116,171
Uniqueness	University ID, Employee ID, Course Code, Semester Code, section code/name per term.	DEC-172
Attachments	Appeal, excused absence, transfer, exception; PDF/JPG/JPEG/PNG <=5MB.	DEC-174-175
Attachment access/retention	Owner/reviewers/authorized users; retain with associated record.	DEC-183-184
No hard delete	Approved academic records use cancel/disable/correct and audit.	DEC-86
Retention	Academic records/transcripts permanent; audit for system life; notifications configurable.	DEC-146,165
Backup	Daily automatic plus manual before sensitive operations; default 30-day retention configurable.	DEC-167-168
Restore	System Administrator only, confirmation, audit, result, and integrity check.	DEC-169-170
Concurrent edits	Reject stale save and require refresh/retry.	DEC-187
Atomicity	Rollback entire sensitive operation on any step failure.	DEC-189
Maintenance	Announced window, no new operations, preserve saved data.	DEC-182

9.10 Language, Usability, Compatibility, and Performance Targets

Topic	Approved Outcome	Trace
Language/direction	Arabic RTL and English LTR.	DEC-97-98
Responsive access	Desktop, tablet, mobile browsers; no native app.	DEC-177
Browsers	Modern Chrome, Edge, Firefox, Safari; prioritize Chrome/Edge tests.	DEC-178
Profile	User may edit contact, address, image, password; official data staff-only.	DEC-99-100
Search	Authorized search/filter for relevant records.	DEC-95
Normal response target	Preliminary proposed target: within 3 seconds under normal conditions; pending architecture and technical feasibility validation.	DEC-179; DEC-232
Report target	Preliminary proposed target: within 10 seconds for normal reports; pending architecture and technical feasibility validation.	DEC-180; DEC-232
Concurrency target	Preliminary proposed target: 500 concurrent users; pending architecture, environment, and load-test feasibility validation.	DEC-181; DEC-232
Network	Connected operation only; no offline mode.	ASM-09

10. Requirements Elicitation Question Log

The question log demonstrates how ambiguous project areas were resolved. Pending and deferred items remain explicit and must not become silent requirements.

Elicitation Question	Resolved Answer / Current Position	Status	Trace
----------------------	------------------------------------	--------	-------

Elicitation Question	Resolved Answer / Current Position	Status	Trace
What institution model will SUMS serve?	One university using a generic academic model; University of Palestine / جامعة فلسطين is an intentional configurable demonstration name, not a claim of real institutional affiliation.	Resolved	DEC-17,18,227,233
What delivery platform is required?	Modern responsive bilingual web application.	Resolved	DEC-19,97-98,177
Who is the primary business authority?	Virtual University Registrar / Academic Affairs Representative.	Resolved	DEC-22,127,134
What does complete application mean?	End-to-end runnable, consistent, testable implementation of approved Release 1.0.	Resolved	DEC-27
Where does the student lifecycle begin?	After admission and creation of the university record.	Resolved	DEC-25
What official areas must be covered?	Students, instructors, courses, registration, grading, attendance, academic reports.	Resolved	OCR-03
What supporting areas are necessary?	Academic structure, programs, plans, terms, sections, prerequisites/co-requisites, assessments, GPA, records, access.	Resolved	DEC-23,45-50
Are notifications and audit logs in the release?	Yes, in-app notifications and auditable operations.	Resolved	DEC-24,54,65
Who performs registration?	Student normally; registration staff may intervene; advisor approval is mandatory.	Resolved	DEC-38,40,49
How are exceptions approved?	Advisor recommends; Department Head or Registrar approves according to scope; prerequisite override prohibited.	Resolved	DEC-41,128,142
How are section conflicts and capacity handled?	Validate student/instructor conflicts; enforce section/room capacity; no automatic timetable generation.	Resolved	DEC-48,50,140
How does waitlisting work?	FCFS, automatic first-eligible promotion, credit-load check, stop after add/drop.	Resolved	DEC-51,69,141,150-151
What attendance model is used?	Per-session statuses, 75% general threshold, three Late equals one absence, lab rules separately.	Resolved	DEC-52,59-61,76,143,152-153
How are grades produced and approved?	Assessment weights -> raw score -> relative/absolute grading -> Department approval -> publish/lock.	Resolved	DEC-29,35,53,130,191
What GPA scale and precision apply?	4.00 credit-weighted; truncate to two decimals without rounding.	Resolved	DEC-28-29,156
What repeat, W, I, and P/F rules apply?	Last completed attempt, W no GPA, I temporary then F, defined P/F behavior, repeat limit/approval.	Resolved	DEC-30-32,145,197-198
What credit-load limits apply?	Regular 18; GPA>=3 may choose 18-21; Warning/Probation max12; summer9; probation summer6; final-term exception.	Resolved	DEC-81,87,219
How is academic standing handled?	Good/Warning/Probation thresholds; two consecutive Probation may trigger human dismissal recommendation.	Resolved	DEC-66,217-218
How is graduation approved?	System eligibility, staff review, program confirmation, Registrar approval; no I; fixed graduation record.	Resolved	DEC-33,203-206
What identity model applies?	University ID for students, Employee ID for staff, unique account, temporary first password, multi-role.	Resolved	DEC-72-80,108,225
What account security controls apply?	Password complexity, three-attempt lock, 15-minute lock, 30-minute timeout, audited reset and role changes.	Resolved	DEC-157-164
How are records protected?	No hard deletion of approved academic records, scoped access, separation of duties, audit history.	Resolved	DEC-65,86,117-126
What data import/export is allowed?	Validated partial CSV/Excel import for students/courses; scoped PDF/Excel/CSV export.	Resolved	DEC-75,96,116,166,171,186
How are backups handled?	Daily automatic plus manual backup; 30-day configurable retention; SysAdmin restore and integrity check.	Resolved	DEC-106,167-170
What UI compatibility is expected?	Arabic/English, RTL/LTR, responsive, modern Chrome/Edge/Firefox/Safari.	Resolved	DEC-97-98,177-178

Elicitation Question	Resolved Answer / Current Position	Status	Trace
What performance target is planned?	Preliminary proposals only: 3 seconds for normal operations, 10 seconds for normal reports, and 500 concurrent users. These are not final NFR acceptance criteria until architecture and feasibility validation are complete.	Preliminary - Pending Validation	DEC-179-181; DEC-232
Are external integrations or public access included?	No; system is closed and external integrations are future enhancements.	Resolved	DEC-26,107,136
Will a real university data set be used?	No; fictional demo data only.	Resolved	ASM-02,10
Are project team names and assignments final?	Team exists; names/3-4 verification/roles are deferred before design and implementation.	Pending	ASM-11, DEC-229
Is a demo video definitely required?	Expected but not officially confirmed.	Pending	ASM-01
Has a technology stack been selected?	No; intentionally deferred to implementation planning after approved design.	Deferred	DEC-15,19

Remaining Open or Deferred Items

- Confirm whether the course instructor formally requests a demonstration video (ASM-01).
- Record team-member names, verify the official 3-4 count, and approve role/task allocation before detailed design and implementation (ASM-11, DEC-229).
- Select architecture and technology stack only after the SRS and design inputs are approved.
- Convert approved elicitation outcomes into stable FR, NFR, BR, SEC, UC, and TC identifiers in later phases.
- Ask the instructor if any new rubric, diagram-count requirement, presentation rule, or submission naming rule becomes available.

11. Assumptions Log

ID	Assumption	Status	Impact / Validation	Owner
ASM-01	A demonstration video is expected to be requested.	Pending Confirmation	Plan recording/editing time; remove only if instructor confirms it is not required.	Course Instructor / Evaluator
ASM-02	Only fictional student and employee data will be used for development, testing, and demonstration.	Approved	Protects privacy and originality; no real personal data enters the demo dataset.	Project Team
ASM-03	No formal interviews will be conducted with staff of a real university; business decisions are approved internally through Master Project Control from the virtual Registrar perspective.	Approved	Requires explicit recording of every domain policy rather than claiming real institutional validation.	Master Project Control
ASM-04	Release 1.0 does not model Campus as a separate level; Buildings, Rooms, and Laboratories are sufficient.	Approved	Avoids an unnecessary administrative hierarchy level.	Project Team
ASM-05	The numbers of colleges, departments, and programs are configurable and not hard-coded.	Approved	The design must support multiple records without fixed counts.	Academic Affairs
ASM-06	Course credit hours are whole numbers only.	Approved	Simplifies load and GPA calculations; fractional credits are excluded.	Academic Affairs
ASM-07	A course section may have multiple weekly meeting schedules.	Approved	Supports multi-day lectures and separate laboratory meetings.	Academic Affairs
ASM-08	A course section may have one Primary Instructor and one or more Co-Instructors.	Approved	Supports shared teaching and laboratory delivery.	Department Head
ASM-09	Release 1.0 requires network connectivity and does not support offline mode.	Approved	All operations depend on connected access to the application.	Technical Team
ASM-10	The project team will prepare a complete fictional demo dataset covering organization, curriculum, users, term, sections, registration, attendance, grades, and reports.	Approved	Required for end-to-end demonstration and testing.	Project Team
ASM-11	A project team exists; member names, official 3-4 verification, roles, and task assignments will be documented before detailed design and implementation.	Partially Verified	Team allocation remains a pre-design gate.	Project Team Representative
ASM-12	The official source specifies the submission deadline date as 30-07-2026 but does not specify the exact cutoff time or applicable timezone.	Pending Confirmation	Do not present 00:00 or Palestine time as official. Confirm the cutoff time/timezone through an official instructor or course-platform notice before final scheduling and submission.	Course Instructor / Evaluator

12. Risk Register

ID	Risk	Likelihood	Impact	Treatment / Mitigation	Owner	Status
RSK-01	Large scope and schedule pressure	High	High	Freeze the approved scope, divide work into modules, use milestones, parallel work, and frequent integration.	Project Team	Open
RSK-02	Delayed team responsibility allocation	Medium	High	Approve names and responsibilities before detailed design and implementation.	Project Team Representative	Open
RSK-03	Uncontrolled feature creep	High	High	Require a change request, impact analysis, and Decisions Log entry for every new capability.	Master Project Control	Open
RSK-04	Module integration conflicts	High	High	Define module contracts, use GitHub pull requests, integrate frequently, and avoid end-stage integration.	Technical Lead - TBD	Open
RSK-05	Incorrect GPA and relative grading calculations	Medium	High	Create reference calculations, unit tests, boundary tests, and manual verification.	Academic Logic Lead - TBD	Open
RSK-06	Registration and waitlist inconsistency	Medium	High	Use atomic transactions, concurrency controls, and last-seat/failure/rollback test cases.	Registration Lead - TBD	Open

ID	Risk	Likelihood	Impact	Treatment / Mitigation	Owner	Status
RSK-07	Unauthorized access or privacy exposure	Medium	High	Apply least privilege, role-scoped data, separation of duties, and positive/negative authorization tests.	Security/Backend Lead - TBD	Open
RSK-08	Data loss or failed recovery	Medium	High	Run daily backups, create manual pre-change backups, test restore, and verify integrity.	System Administration Lead - TBD	Open
RSK-09	Arabic/English and responsive UI defects	Medium	Medium	Test all critical flows in Arabic/English, RTL/LTR, browsers, and screen sizes from the beginning.	UI/UX Lead - TBD	Open
RSK-10	Performance target not met	Medium	Medium-High	Use efficient queries, pagination, indexing later, load testing, and documented test limits.	Technical Lead - TBD	Open
RSK-11	Insufficient testing before deadline	High	High	Write tests early, test every module during development, and reserve integration/regression time.	QA Lead - TBD	Open
RSK-12	Artifact and implementation mismatch	High	High	Maintain traceability, phase reviews, controlled changes, and consistency audits.	Master Project Control	Open
RSK-13	Technology learning or selection delay	Medium	High	Choose the stack later based on team experience and validate it with a small technical prototype.	Project Team	Open
RSK-14	Late documentation and final packaging	Medium-High	High	Update documents in parallel, maintain deliverable checklists, and test the final ZIP early.	Documentation Lead - TBD	Open
RSK-15	Incomplete team knowledge	Medium	High	Use reviews, walkthroughs, internal presentations, and shared explanation of major modules and decisions.	Project Team	Open

Risk Governance

- Risks do not silently reduce the approved Release 1.0 scope.
- Risk owners marked TBD must be assigned when team responsibilities are approved.
- Risk status and treatment effectiveness must be reviewed at each phase gate.
- Any scope reduction or deferral requires a documented change decision and traceability impact review.

13. Decisions Log

The Decisions Log preserves the history of approved interpretations and policies. A superseded decision remains visible and is not deleted. Downstream artifacts must reference the effective decision.

ID	Title	Approved Decision	Status / Relationship	Area
DEC-15	Activate Scope and Elicitation Phase	Limit the active work to project scope and requirements elicitation; do not create final FR/NFR, use cases, entities, classes, screens, stack, or code.	Approved	Governance
DEC-16	Defer Baseline File Generation	Do not generate final DOCX/PDF until the complete content is reviewed.	Implemented in the approved baseline.	Governance
DEC-17	Single-University Scope	SUMS serves one university only.	Approved	Scope
DEC-18	Generic University Model	Use a general university model rather than a specific real university policy set.	Approved	Scope
DEC-19	Web Application Platform	Release 1.0 is a modern web application; no technology stack is selected here.	Approved	Scope
DEC-20	GitHub Version Control	Use GitHub for version control, collaboration, and history.	Approved	Project Management
DEC-21	Current Official Source Set	No additional rubric or official project file is currently available; new sources require change control.	Approved	Governance
DEC-22	Primary Product Owner	Designate the University Registrar / Academic Affairs Representative as virtual Product Owner and functional authority.	Approved	Stakeholders

Smart University Management System (SUMS) | v1.0 | Approved Baseline

ID	Title	Approved Decision	Status / Relationship	Area
DEC-23	Current Release Scope Model	Include official core areas plus necessary supporting academic capabilities in Release 1.0.	Approved	Scope
DEC-24	Notifications and Audit Logs	Include in-app notifications and audit logs in Release 1.0.	Approved	Scope
DEC-25	Student Lifecycle Starting Point	Manage students after admission and university-record creation; public admission is out of scope.	Approved	Scope
DEC-26	No Mandatory External Integrations	No required payment, SMS/email, biometric, LMS, SSO, government, or external-system integration in Release 1.0.	Approved	Boundary
DEC-27	Meaning of Complete Application	Complete means a runnable, consistent, end-to-end, testable implementation of the approved release scope.	Approved	Scope
DEC-28	GPA Scale	Use a maximum cumulative GPA scale of 4.00.	Expanded by DEC-29	Grading
DEC-29	Relative 4.00 Grading System	Use credit-weighted 4.00 GPA; derive letter grades per section from mean and standard deviation, with absolute fallback and fail floor.	Approved	Grading
DEC-30	Course Repeat Policy	Use the last completed attempt in GPA; retain all attempts; award earned credits once.	Approved	Grading
DEC-31	Withdrawal and Incomplete	W has no GPA/credit effect; I is temporary and converts to final grade or F after the approved deadline.	Approved	Grading
DEC-32	Pass/Fail Courses	P requires performance equivalent to C or higher, grants credit without GPA; F is 0.00 and grants no credit.	Approved	Grading
DEC-33	Graduation Eligibility	Require program completion, required courses, cumulative GPA ≥ 2.00 , no required F, no I, and applicable minimum-C rules.	Approved	Graduation
DEC-34	Passing Grade and Minimum C	D is general pass/credit; C is required for prerequisites and courses explicitly marked with minimum C.	Approved	Grading
DEC-35	Assessment Weight Policy	Default weights: coursework 20%, midterm 30%, final 50%; approved section-specific alternatives must total 100%.	Approved	Assessment
DEC-36	Stakeholder Register Baseline	Establish STK-01 through STK-11 as the initial stakeholder register.	Approved	Stakeholders
DEC-37	Academic Management Separation	Keep Department Head and Program Coordinator distinct; include Dean within University Management.	Approved	Stakeholders
DEC-38	Mandatory Advisor Approval	Academic Advisor approval is mandatory to complete normal registration.	Approved	Registration
DEC-39	Instructor Section Scope	Instructor manages only assigned sections unless another authorized role applies.	Approved	Authorization
DEC-40	Student and Staff Registration	Students register normally; authorized registration staff may intervene when needed.	Approved	Registration
DEC-41	Exception Review and Approval	Advisor reviews; Registrar or Department Head approves according to exception scope.	Approved	Registration
DEC-42	Role-Scoped Reports	All defined stakeholders may receive reports appropriate to their responsibilities.	Approved	Reporting
DEC-43	Combined Technical Stakeholder	Combine system administration, IT support, and operational security administration in Release 1.0.	Approved	Stakeholders
DEC-44	Project Stakeholders	Include the student project team and course evaluator as non-operational project stakeholders.	Approved	Stakeholders
DEC-45	Academic Hierarchy	Use University -> Colleges -> Departments -> Academic Programs; students link to programs and courses to departments.	Approved	Academic Structure
DEC-46	Study Plan Structure	Each program has a study plan with required/elective courses, credits, levels, and prerequisites.	Approved	Curriculum
DEC-47	Semester Definition	Each semester has name/year, dates, registration/add-drop windows, and status.	Approved	Academic Terms
DEC-48	Course Section Definition	Sections include course, term, instructor, capacity, meetings, room, and status; detect conflicts without automatic timetable generation.	Approved	Sections
DEC-49	Registration Workflow	Student selects, system validates, advisor reviews, approved request becomes confirmed; staff has privileged intervention.	Approved	Registration
DEC-50	Registration Validation Set	Validate prerequisites, conflicts, capacity, credit load, term status, student status, and advisor approval.	Approved	Registration
DEC-51	Section Waitlist	Include section waitlists in Release 1.0.	Approved	Registration
DEC-52	Attendance Recording	Record each session as Present, Absent, Late, or Excused; calculate percentage and warnings.	Approved	Attendance

Smart University Management System (SUMS) | v1.0 | Approved Baseline

Smart University Management System (SUMS) | v1.0 | Approved Baseline

ID	Title	Approved Decision	Status / Relationship	Area
DEC-53	Grade Approval Workflow	Use Draft -> Submit -> Department approval -> Publish -> Lock; later changes require formal correction.	Approved	Grading
DEC-54	In-App Notifications Only	Use in-app notifications in Release 1.0; email/SMS are future enhancements.	Approved	Notifications
DEC-55	Student Statuses	Use Active, Suspended, On Leave, Graduated, Withdrawn; normal registration is limited to Active.	Approved	Student Lifecycle
DEC-56	Student Academic Profile	Maintain program, level, admission date, advisor, status, earned credits, semester GPA, and cumulative GPA.	Approved	Student Records
DEC-57	Course Data	Maintain code, name, credits, department, level, type, description, prerequisites, and minimum-pass rule.	Approved	Curriculum
DEC-58	Instructor Statuses	Use Active, On Leave, Inactive; new section assignment requires Active.	Approved	Instructors
DEC-59	General Attendance Threshold	Set the general minimum attendance threshold to 75%.	Approved	Attendance
DEC-60	Laboratory Absence Limit	A practical/laboratory course permits at most one unexcused laboratory absence.	Clarified by DEC-76	Attendance
DEC-61	Attendance Warning and Bar	Issue warning first; Attendance Barred may follow threshold breach after authorized approval.	Approved	Attendance
DEC-62	Academic Record Coverage	Include term results, cumulative history, all attempts, W/I/P/F, credits, GPA, and graduation eligibility.	Approved	Student Records
DEC-63	Transcript Types	Provide Unofficial Transcript to the student and Official Transcript through registration staff; QR/e-signature is future.	Approved	Transcripts
DEC-64	Report Set	Include academic performance, registration, enrollment, attendance risk, grade distribution, GPA/standing, graduation, teaching load, and program/department reports.	Approved	Reporting
DEC-65	Audit Log Content and Access	Record actor, operation, time, record, old/new values, reason, result; no ordinary-user modification/deletion.	Approved	Audit
DEC-66	Academic Standing Thresholds	Good Standing >=2.00; Warning 1.50-1.99; Probation <1.50; dismissal requires human decision.	Approved	Academic Standing
DEC-67	Warning/Probation Registration	Allow registration with reduced load and advisor approval.	Approved	Registration
DEC-68	Add/Drop/Withdrawal	Add/drop within window without W; later withdrawal shows W; late withdrawal needs approval.	Approved	Registration
DEC-69	Automatic Waitlist Promotion	Automatically register the first eligible waitlisted student when a seat becomes available.	Approved	Registration
DEC-70	Grade Correction Workflow	Instructor request with reason -> Department Head review -> Registrar approval -> audit -> GPA recalculation.	Approved	Grading
DEC-71	Grade Appeal	Support Student -> Instructor -> Department Head -> final decision workflow.	Approved	Grading
DEC-72	Account Model	Use one unique account, role-based access, Active/Locked/Disabled states, reset, and temporary lockout.	Approved	Security
DEC-73	Student Identifier Concept	Student ID is sequential, contains admission year, and begins with 1 male/2 female.	Refined by DEC-78/79	Identity
DEC-74	Multiple Roles	One account may hold multiple roles.	Approved	Authorization
DEC-75	Report Export	Display reports in-app; use PDF for official outputs and Excel/CSV for authorized analysis.	Approved	Reporting
DEC-76	Excused Laboratory Absence	One unexcused lab absence is allowed; excused absence requires review/approval and may require makeup.	Approved	Attendance
DEC-77	Student Login	Use University ID + Password; name is display/search data only.	Approved	Identity
DEC-78	Student ID Format	Use GYYYYNNNNN: gender prefix, four-digit admission year, five-digit sequence.	Approved	Identity
DEC-79	Annual Student Sequence	Restart the student sequence each year.	Approved	Identity
DEC-80	Initial Password	Generate a temporary password and require change at first login.	Approved	Security
DEC-81	Semester Credit Load	Regular minimum 18; GPA<3 max18; Good Standing GPA>=3 may choose 18-21; Warning/Probation max12; final-term and approved exceptions apply.	Approved	Registration

ID	Title	Approved Decision	Status / Relationship	Area
DEC-82	Appeal Final Authority	Department Head recommends; University Registrar gives final approval.	Approved	Grading
DEC-83	Appeal Window	Allow grade appeal within seven days after publication.	Approved	Grading
DEC-84	Makeup Laboratory Approval	Instructor reviews evidence, Department Head approves, Instructor records makeup result.	Approved	Attendance
DEC-85	Notification Features	Support read/unread, timestamp, linked action, severity, and targeted individual/group/role delivery.	Approved	Notifications
DEC-86	No Hard Delete of Academic Records	Use cancel/disable/correct states with audit history after approval.	Approved	Data Governance
DEC-87	Summer Credit Limit	Summer semester maximum is 9 credits.	Approved	Registration
DEC-88	Co-requisites	Support co-requisite rules in addition to prerequisites.	Approved	Curriculum
DEC-89	Course Delivery Types	Classify courses as Theoretical, Practical/Laboratory, or Mixed.	Approved	Curriculum
DEC-90	Repeat Passed Courses	Allow repeating any passed course for improvement, subject to repeat policy.	Approved	Grading
DEC-91	Degree Audit	Provide degree progress and audit of completed/remaining requirements.	Approved	Graduation
DEC-92	Eligible Course List	Show rule-based courses the student is eligible to register.	Approved	Registration
DEC-93	Semester Closure	Finalize attendance/grades, calculate GPA/standing, update progress, and lock records.	Approved	Academic Terms
DEC-94	Role Dashboards	Provide role-based dashboards without defining final screens in this phase.	Approved	UI Scope
DEC-95	Search and Filtering	Support permission-scoped search and filters across authorized records.	Approved	Usability
DEC-96	Bulk Import Scope	Support CSV/Excel import for students and courses in Release 1.0.	Approved	Data Import
DEC-97	Bilingual Support	Support Arabic and English.	Approved	Usability
DEC-98	RTL and LTR	Use RTL for Arabic and LTR for English.	Approved	Usability
DEC-99	Profile Editing	Users may edit contact/profile data; official identity/program data requires authorized staff.	Approved	Profiles
DEC-100	Profile Image	Profile image is optional; authorized staff may remove or replace it.	Approved	Profiles
DEC-101	Program Transfer	Support student transfer between academic programs in Release 1.0.	Approved	Student Lifecycle
DEC-102	Transfer History	Retain all attempts and old program history; re-evaluate courses against the new plan.	Approved	Student Records
DEC-103	Student Leave	On Leave blocks registration; record dates/reason; Academic Affairs approves reactivation.	Approved	Student Lifecycle
DEC-104	Student Suspension	Suspended blocks registration; record reason/duration; reactivation needs approval.	Approved	Student Lifecycle
DEC-105	Archived Accounts	Preserve graduate/withdrawn/inactive records, block new operations, and permit restricted history access.	Approved	Data Governance
DEC-106	Backup and Restore Capability	Include backup and restore under System Administrator control without selecting technology.	Approved	Operations
DEC-107	Closed System	No public portal; access requires an approved account.	Approved	Boundary
DEC-108	Employee Login	Use unique Employee ID + Password for staff and instructors.	Approved	Identity
DEC-109	Registration Holds	Support Academic, Disciplinary, Missing Documents, and Administrative holds; exclude Financial Hold.	Approved	Registration
DEC-110	Section Cancellation	Department Head or registration staff may cancel a section with reason, date, notifications, and registration handling.	Approved	Sections
DEC-111	Instructor Reassignment	Change section instructor with Department Head approval, history, notification, and audit.	Approved	Sections

ID	Title	Approved Decision	Status / Relationship	Area
DEC-112	Rooms and Laboratories	Manage buildings, rooms, laboratories, capacity, type, and conflicts without full facilities management.	Approved	Scheduling
DEC-113	Advising Notes	Maintain internal advisor notes and a separate optional student-facing summary.	Approved	Advising
DEC-114	Academic Announcements	Target in-app announcements to university, college, department, program, section, or role.	Approved	Notifications
DEC-115	Temporary Delegation	Allow time-bounded, scope-bounded approval delegation with audit history.	Approved	Authorization
DEC-116	Bulk Import Validation	Provide preview, field/duplicate validation, row errors, invalid-row rejection, and final results.	Approved	Data Import
DEC-117	Registration Staff Authority	Manage official student records, registration actions, holds, status after approval, and official transcripts; no direct grade changes.	Approved	Authorization
DEC-118	Administrator Separation of Duties	System Administrator manages technical functions but not grades, GPA, or academic decisions.	Approved	Authorization
DEC-119	Program Coordinator Authority	Manage plans, course groups, prerequisites/co-requisites, progress, and statistics; plan changes require Department Head approval.	Approved	Authorization
DEC-120	Department Head Authority	Approve sections, instructor assignments, department exceptions, grade/appeal reviews, makeup labs, and department reports.	Approved	Authorization
DEC-121	Advisor Access Scope	Advisor sees assigned students only unless temporary access is approved.	Approved	Authorization
DEC-122	Instructor Access Scope	Instructor edits current assigned sections, sees old sections read-only, and cannot see others without another role.	Approved	Authorization
DEC-123	Student Data Isolation	Student sees and edits only permitted personal data and own requests.	Approved	Authorization
DEC-124	Management Read-Only Access	Management/Dean has read-only dashboards and reports, not direct record modification.	Approved	Authorization
DEC-125	Graduate Access	Graduate may log in, view record/transcript/old notifications, and update contact/password; no new academic operations.	Approved	Authorization
DEC-126	Inactive Account Access	Withdrawn/inactive access is determined administratively as blocked or limited read-only.	Approved	Authorization
DEC-127	Final Academic Policy Authority	University Registrar has final authority over general academic-policy conflicts.	Approved	Governance
DEC-128	Exception Authority Split	Department Head approves course/department exceptions; Registrar approves university-wide or official-record exceptions; advisor recommends.	Approved	Governance
DEC-129	Curriculum Change Workflow	Coordinator proposes -> Department Head approves -> Registrar activates; preserve old versions for existing students.	Approved	Curriculum
DEC-130	Section Results Approval	Department Head approves section results; Registrar may formally review/reopen; publish after department approval.	Approved	Grading
DEC-131	Advisor Timeout Escalation	Escalate an unanswered registration request to Department Head after two working days.	Approved	Registration
DEC-132	Waitlist Reapproval	No new advisor approval is needed if the waitlisted course was already approved in the request.	Approved	Registration
DEC-133	Delegation Scope	A delegate may perform only operations explicitly listed in the delegation.	Approved	Authorization
DEC-134	Internal Approval Representation	Project Team Representative approves internally in Master Project Control; Registrar remains the virtual business authority.	Approved	Governance
DEC-135	Course Evaluator Authority	Course evaluator assesses the project; new official instructions supersede internal decisions through change control.	Approved	Governance
DEC-136	No External Operational Actors	Release 1.0 has no external operational stakeholder/system actor; future integrations are deferred.	Approved	Boundary
DEC-137	Working Days	Working days are Sunday through Thursday.	Approved	Calendar
DEC-138	Academic Year Structure	Use First Semester, Second Semester, and Summer Semester.	Approved	Academic Terms
DEC-139	Configurable Academic Windows	Configure registration, add/drop, withdrawal, and appeal windows per semester.	Approved	Academic Terms
DEC-140	Section and Room Capacity	Section capacity may not exceed assigned room/lab capacity without approved exception.	Approved	Scheduling

ID	Title	Approved Decision	Status / Relationship	Area
DEC-141	Waitlist Priority	Use first-come, first-served according to join time.	Approved	Registration
DEC-142	No Prerequisite Override	Do not permit registration when prerequisite minimum C is not met; no exception.	Approved	Registration
DEC-143	Mixed-Course Attendance	Calculate theory 75% and laboratory absence rule independently for mixed courses.	Approved	Attendance
DEC-144	Grade Deadlines	Configure a deadline per semester for grade entry, approval, and publication.	Approved	Grading
DEC-145	Automatic Incomplete Conversion	After the next regular semester closes, unresolved I becomes F and notifies student/instructor.	Approved	Grading
DEC-146	Data Retention	Keep academic records/transcripts permanently, sensitive audit logs for system life, and archive general notifications by configurable period.	Approved	Data Governance
DEC-147	System Time Zone	Use Palestine time for all system dates and deadlines.	Approved	Calendar
DEC-148	Semester Code	Use YYYY-1, YYYY-2, and YYYY-S.	Approved	Academic Terms
DEC-149	Enrollment Statuses	Use Pending Advisor Approval, Registered, Waitlisted, Dropped, Withdrawn, Cancelled.	Approved	Registration
DEC-150	Waitlist and Credit Limit	Allow waitlist entry even if later registration would exceed load; block promotion until eligible.	Approved	Registration
DEC-151	Waitlist End	Stop automatic promotion at end of add/drop; later addition requires approved exception.	Approved	Registration
DEC-152	Late Conversion	Every three Late records equal one absence.	Approved	Attendance
DEC-153	Excused Absence Treatment	Approved excused absence remains visible but does not count toward the effective absence total.	Approved	Attendance
DEC-154	Assessment Score Precision	Allow assessment scores with two decimal places.	Approved	Assessment
DEC-155	Raw Score Precision	Display raw score to two decimals and use exact internal value for relative grading without integer rounding.	Approved	Grading
DEC-156	GPA Truncation	Truncate semester and cumulative GPA to two decimals without rounding; the truncated value is official for rules.	Approved	Grading
DEC-157	Password Complexity	Require at least 8 characters with upper, lower, number, and special character.	Approved	Security
DEC-158	Failed Login Threshold	Lock temporarily after three failed login attempts.	Approved	Security
DEC-159	Temporary Lock Duration	Lock for 15 minutes; System Administrator may unlock manually.	Approved	Security
DEC-160	Session Timeout	End inactive sessions after 30 minutes.	Approved	Security
DEC-161	Password Reset Process	Authorized identity verification -> temporary password -> mandatory change at first login.	Approved	Security
DEC-162	Role Change Control	Role add/remove requires authorization, reason, audit; users cannot edit own roles.	Approved	Security
DEC-163	Status-Based Access Adjustment	Apply appropriate access automatically when student/instructor status changes; full restoration requires approval.	Approved	Security
DEC-164	Login Audit	Record login/logout, success/failure, account, and lock reason; accessible only to System Administrator.	Approved	Security
DEC-165	Notification Retention	Notification retention is configurable; default is two years.	Approved	Data Governance
DEC-166	Audit Log Export	Authorized users may search/filter and export audit results to PDF/CSV without edit/delete.	Approved	Audit
DEC-167	Backup Frequency	Create automatic daily backups and allow manual backups before sensitive operations.	Approved	Operations
DEC-168	Backup Retention	Backup retention is configurable; default is 30 days.	Approved	Operations
DEC-169	Restore Authority	Only System Administrator may restore, with confirmation and audit logging.	Approved	Operations
DEC-170	Restore Verification	Record time, backup, actor, result, and post-restore data-integrity check.	Approved	Operations

ID	Title	Approved Decision	Status / Relationship	Area
DEC-171	Partial Bulk Import	Import valid rows and reject invalid rows with detailed errors.	Approved	Data Import
DEC-172	Unique Identifiers	Prevent duplicate University ID, Employee ID, Course Code, Semester Code, and section code/name within term.	Approved	Data Integrity
DEC-173	Section Code Format	Use COURSECODE-SEMESTER-SECTION, e.g., CS101-2026-1-01.	Approved	Identity
DEC-174	Request Attachments	Allow attachments for grade appeal, excused absence, program transfer, and academic exception.	Approved	Documents
DEC-175	Attachment Types and Size	Allow PDF/JPG/JPEG/PNG up to 5 MB per file.	Approved	Documents
DEC-176	Calendar System	Use Gregorian calendar only, with language-appropriate display.	Approved	Calendar
DEC-177	Responsive Web	Support desktop, tablet, and mobile browsers; no native mobile app in Release 1.0.	Approved	Usability
DEC-178	Browser Support	Support modern Chrome, Edge, Firefox, Safari; prioritize Chrome/Edge tests.	Approved	Compatibility
DEC-179	Normal Response Target	Target normal page/search/save response within 3 seconds under normal conditions.	Preliminary proposed target; pending architecture and technical feasibility validation under DEC-232	Performance
DEC-180	Report Response Target	Target normal report generation/display within 10 seconds.	Preliminary proposed target; pending architecture and technical feasibility validation under DEC-232	Performance
DEC-181	Concurrency Target	Design for 500 concurrent users.	Preliminary proposed target; pending architecture and technical feasibility validation under DEC-232	Performance
DEC-182	Scheduled Maintenance	Allow announced maintenance windows, block new operations, and preserve saved data.	Approved	Availability
DEC-183	Attachment Access	Restrict attachments to request owner, reviewers, and authorized academic/administrative users.	Approved	Privacy
DEC-184	Attachment Retention	Retain attachments for the lifetime of the associated record.	Approved	Data Governance
DEC-185	Official PDF Metadata	Include university, report title, issue date/time, issuing user, and Official/Unofficial label.	Approved	Reporting
DEC-186	Personal Data Export	Restrict student-data export to authorized users and audit the export.	Approved	Privacy
DEC-187	Concurrent Edit Protection	Reject stale updates and require refresh/retry when another user changed the record.	Approved	Data Integrity
DEC-188	Last-Seat Concurrency	First successful completed registration gets the last seat; another eligible request is waitlisted.	Approved	Registration

ID	Title	Approved Decision	Status / Relationship	Area
DEC-189	Atomic Operations	Rollback the complete operation if any registration/sensitive step fails.	Approved	Data Integrity
DEC-190	Waitlist Tie-Break	Use precise join time, then ascending University ID for exact ties.	Approved	Registration
DEC-191	Grade Publication Batch	Publish all section results together after section approval.	Approved	Grading
DEC-192	Attendance Edit Window	Instructor may edit attendance for seven days; later change needs reason, Department Head approval, and audit.	Approved	Attendance
DEC-193	Cancelled Session	Keep session as Cancelled, exclude it from attendance percentage, record reason, notify students.	Approved	Attendance
DEC-194	Urgent Notification Tracking	Display Urgent clearly, record read time, and let sender see read count.	Approved	Notifications
DEC-195	Sensitive Data Minimization	Hide unnecessary phone/address data in general reports; never display passwords.	Approved	Privacy
DEC-196	Safe Localized Errors	Show clear localized user errors without technical/database details; log technical details internally.	Approved	Security
DEC-197	Repeat Attempt Limit	Allow two additional attempts; more requires Department Head approval.	Approved	Grading
DEC-198	No Parallel Attempt	Prevent new registration while a Registered/In Progress/Incomplete attempt exists.	Approved	Registration
DEC-199	One Section per Course per Term	Prevent registration in multiple sections of the same course in one term.	Approved	Registration
DEC-200	Co-requisite Withdrawal	Advisor reviews withdrawal and system applies the configured relationship rule.	Approved	Registration
DEC-201	Section Cancellation after Start	Try transfer to suitable section; otherwise cancel without W/GPA effect and notify students/advisors.	Approved	Sections
DEC-202	Section Time/Place Change	Require Department Head approval, conflict recheck, notification, and audit.	Approved	Sections
DEC-203	Graduation Statuses	Use Not Eligible, Potentially Eligible, Eligible, Approved for Graduation, Graduated.	Approved	Graduation
DEC-204	Graduation Approval Workflow	System check -> Registration Staff review -> Program Coordinator confirmation -> Registrar approval -> Graduated.	Approved	Graduation
DEC-205	Incomplete Blocks Graduation	Any I prevents graduation approval.	Approved	Graduation
DEC-206	Fixed Graduation Record	Store graduation term/date, final GPA, program, and total earned credits as fixed values after approval.	Approved	Graduation
DEC-207	Relative-Grading Minimum Size	Use absolute grading when fewer than 10 valid final numeric grades exist.	Approved	Grading
DEC-208	Zero-Variance Fallback	Use absolute grading when section standard deviation is zero.	Approved	Grading
DEC-209	Absolute Fail Floor	Raw score below 45/100 is F regardless of relative result.	Approved	Grading
DEC-210	Student Section Statistics	After publication, show mean, highest, lowest, and letter distribution without other-student identities/marks.	Approved	Reporting
DEC-211	Automatic GPA Recalculation	Recalculate GPA after publication, correction, I conversion, repeat completion, or official result cancellation.	Approved	Grading
DEC-212	Transcript Languages	Issue transcripts in Arabic or English while preserving academic symbols.	Approved	Transcripts
DEC-213	Official Transcript Reference	Each official transcript has unique issue number, issue time, issuer, and Valid/Cancelled status.	Approved	Transcripts
DEC-214	Transcript Cancellation	Do not delete erroneous official transcript; cancel with reason and issue a new number.	Approved	Transcripts
DEC-215	Closed-Semester Report Snapshots	Preserve fixed final reports after semester closure.	Approved	Reporting
DEC-216	Automatic Report Scope	Apply user scope automatically to every report.	Approved	Reporting
DEC-217	Probation Dismissal Recommendation	After two consecutive Probation semesters, a dismissal recommendation may be raised; no automatic dismissal.	Approved	Academic Standing
DEC-218	Standing Calculation Time	Recalculate standing after semester closure and publication of all results.	Approved	Academic Standing

ID	Title	Approved Decision	Status / Relationship	Area
DEC-219	Probation Summer Load	Probation student summer maximum is 6 credits.	Approved	Registration
DEC-220	Appeal Outcome Range	Appeal may raise, lower, or retain the grade; notify student with reason.	Approved	Grading
DEC-221	No Duplicate Final Appeal	No second appeal on the same grade after final decision unless Registrar reopens the case.	Approved	Grading
DEC-222	Relative-Grading Population	Use only completed final numeric grades; exclude W, I, and incomplete cases.	Approved	Grading
DEC-223	Low Scores in Statistics	Include numeric scores below 45 in mean and standard deviation even though they receive F.	Approved	Grading
DEC-224	Privacy Threshold for Statistics	Show section statistics only after approval/publication and with at least 10 students.	Approved	Privacy
DEC-225	Employee ID Format	Use EYYYYNNNN, e.g., E20260001.	Approved	Identity
DEC-226	University Display Name	Use Arabic جامعة فلسطين and English Palestine University.	Superseded by DEC-227	Configuration
DEC-227	Correct English University Name	Use جامعة فلسطين / University of Palestine.	Approved	Configuration
DEC-228	Preserve Full Release Scope	Manage risks through planning, allocation, integration, and testing; do not silently remove approved capabilities.	Approved	Governance
DEC-229	Defer Team Task Assignment	Team exists, but names and task assignments are deferred until before detailed design and implementation.	Approved	Project Management
DEC-230	Release 1.0 Capability Prioritization and Feasibility Correction	Preserve CAP-01-CAP-70 as the approved capability catalog and assign each capability a Must, Should, Could, or Future release priority. Only Must capabilities are mandatory for Release 1.0; Should follows completion of all Must scope; Could is implemented only if time and feasibility permit; Future is excluded.	Approved	Scope / Feasibility
DEC-231	Official Deadline Date and Pending Cutoff Time	Treat 30-07-2026 as the only officially sourced deadline fact. The exact cutoff time and applicable timezone remain pending confirmation under ASM-12; remove all claims that 00:00 Palestine time is official.	Approved	Governance / Deadline
DEC-232	Preliminary Performance Target Classification	Retain DEC-179, DEC-180, and DEC-181 as preliminary proposed design targets only. They are not final NFR acceptance criteria until architecture, environment, load-test approach, and technical feasibility are validated.	Approved	Performance / Feasibility
DEC-233	Configurable Demonstration Institution Name	Confirm University of Palestine / جامعة فلسطين as an intentional configurable demonstration name. It does not assert affiliation with, endorsement by, policies of, or data from any real institution and may be changed through configuration.	Approved	Configuration / Scope

14. Source and OCR Traceability

Result Area	OCR Coverage	Baseline Evidence	Decision Coverage	Primary Source
Official project identity and scope	OCR-01-OCR-04	Charter; Scope; Boundary	DEC-17-19,23-27,45-64	Project list.pdf; final project.pdf
Team and collaboration obligations	OCR-05-OCR-06, OCR-15, OCR-20-OCR-21	Charter; Risks; Decisions	ASM-11; RSK-02,04,15; DEC-20,229	final project.pdf

Result Area	OCR Coverage	Baseline Evidence	Decision Coverage	Primary Source
Requirements analysis and SDLC	OCR-07-OCR-09	Entire baseline; Approval Gate	DEC-15-16,21,228	final project.pdf; Approved Course Knowledge Baseline v1.0
UML, OOP, database, UI	OCR-10-OCR-14	Constraints; Scope; Deferred boundaries	DEC-19,27,94,97-100,177-181	final project.pdf
Documentation and demonstration	OCR-16-OCR-17	Document Control; Assumptions; Approval	ASM-01,10; DEC-16	final project.pdf
Originality	OCR-18-OCR-19	Charter; Assumptions; Risks	ASM-02-03; RSK-12,14	final project.pdf
Official deliverables and deadline	OCR-22-OCR-29	Charter Deliverables; Risks; Approval Gate	ASM-01, ASM-12; DEC-20,231	final project.pdf
Stakeholders	OCR-03,07,08,13-17	STK-01-STK-11	DEC-22,36-44,117-136	Approved decisions and course stakeholder guidance
Capabilities	OCR-03,07-14	CAP-01-CAP-70 approved catalog with Must/Should/Could/Future prioritization	DEC-23-216; DEC-230	Official core plus approved necessary/professional scope
Assumptions and risks	OCR-07-09,15-20,29	ASM-01-ASM-12; RSK-01-RSK-15	DEC-228-233	Approved governance rules

Traceability Rule

During the SRS phase, every new FR, NFR, BR, and SEC item must trace to one or more OCR items, capabilities, approved decisions, or approved assumptions in this baseline. Use cases, database design, classes, UI screens, and tests must then trace to those approved requirements. No downstream artifact may introduce an unapproved capability silently.

15. Baseline Approval and Next-Phase Gate

Final Approval

Final Decision: Approved. Approval Date: 12-07-2026. Approved Version: 1.0. Master Project Control approved this document as the authoritative Project Scope and Requirements Elicitation Baseline for SUMS.

Approved Baseline and Phase Gate

- Authoritative Master Source: DOCX.
- Approved Read-Only Reference Copy: PDF.
- Scope and Requirements Elicitation phase: Completed.
- Next authorized phase: SRS and Requirements Baseline.
- Implementation: Not authorized yet.
- All identifiers and approved meanings are frozen unless changed through documented change control.

Control Conditions

Pending assumptions remain pending only according to their individual recorded status; they do not make the document itself pending.

Detailed design, UML, architecture, technology selection, database design, UI/UX, and code remain gated by their later approved phases.

Team names and role/task allocation must be recorded before detailed design and implementation, as already tracked.

The SRS and Requirements Baseline may now begin under the approved scope, identifier-preservation, and traceability rules.

Prioritized Must policy outcomes may be converted into testable SRS requirements without changing their approved meaning.

Any new instructor instruction must be handled through documented change control before modifying this approved baseline.

Final Approval Record

Role	Decision	Date	Name / Signature	Notes
Project Team Representative	Approved	12-07-2026	SUMS Project Team	Required corrections applied and final baseline accepted.
Master Project Control	Approved	12-07-2026	Master Project Control	Final approval of Scope and Requirements Elicitation Baseline v1.0.

Appendix A. Academic Grading and GPA Tables

A.1 Letter Grades and Grade Points

Letter	Grade Point
A	4.00
A-	3.70
B+	3.30
B	3.00
B-	2.70

Letter	Grade Point
C+	2.30
C	2.00
C-	1.70
D+	1.30
D	1.00
F	0.00

A.2 Relative Grading Model

For a completed numeric score X , section mean μ , and standard deviation σ : $Z = (X - \mu) / \sigma$; $T = 50 + 10Z$. Relative grading applies only when at least 10 completed numeric grades exist and σ is not zero. A raw score below 45 receives F regardless of T .

T-Score Range	Letter	Points
$T \geq 65$	A	4.00
$60 \leq T < 65$	A-	3.70
$55 \leq T < 60$	B+	3.30
$50 \leq T < 55$	B	3.00
$45 \leq T < 50$	B-	2.70
$40 \leq T < 45$	C+	2.30
$35 \leq T < 40$	C	2.00
$30 \leq T < 35$	C-	1.70
$25 \leq T < 30$	D+	1.30
$20 \leq T < 25$	D	1.00
$T < 20$	F	0.00

A.3 Absolute Grading Fallback

Raw Score	Letter	Points
90-100	A	4.00
85-89.99	A-	3.70
80-84.99	B+	3.30
75-79.99	B	3.00
70-74.99	B-	2.70
65-69.99	C+	2.30
60-64.99	C	2.00
55-59.99	C-	1.70
50-54.99	D+	1.30
45-49.99	D	1.00
<45	F	0.00

A.4 GPA Calculation

Semester GPA = $\text{Sum}(\text{Grade Point} \times \text{Course Credits}) / \text{Sum}(\text{Attempted GPA Credits})$. Cumulative GPA uses all effective GPA attempts according to the repeat policy. The calculated value is truncated to two decimal places without rounding, and the truncated value is the official value for academic rules.

A.5 Academic Standing and Load

Condition	Standing / Load Rule
Cumulative GPA ≥ 2.00	Good Standing.
$1.50 \leq \text{GPA} < 2.00$	Academic Warning.
GPA < 1.50	Academic Probation.
Two consecutive Probation terms	May trigger dismissal recommendation; no automatic dismissal.
Good Standing, GPA < 3.00	Regular maximum 18 credits.
Good Standing, GPA ≥ 3.00	Student may choose 18-21 credits.
Warning / Probation	Regular maximum 12 credits; advisor approval.
Summer	General maximum 9; Probation maximum 6.
Final term	May take fewer than 18 if fewer credits remain, or through approved exception.

Appendix B. Glossary

Term	Definition
Academic Standing	The student classification derived from cumulative GPA after semester closure.
Add/Drop	The configured period for adding or removing a course without W.
Audit Log	Immutable accountability record of sensitive operations and changes.
Co-requisite	A course that must be taken at the same time or completed previously.
Course Section	A specific offering of a course in a semester with instructor, meetings, capacity, and room.
Degree Audit	Evaluation of completed and remaining program requirements.
Good Standing	Cumulative GPA of at least 2.00.
Incomplete (I)	Temporary grade that must be resolved by the end of the next regular semester or becomes F.
Official Transcript	Controlled staff-issued academic record with a unique issue number and status.
Prerequisite	A course that must be completed with at least C before another course can be registered.
Relative Grading	Section-based letter-grade assignment using mean and standard deviation.
Semester Closure	Formal finalization and locking of semester results, standing, and reports.
University ID	Student login and unique academic identifier in GYYYYNNNNN format.
Waitlist	Ordered list of students awaiting a seat in a full section.
Withdrawal (W)	Course withdrawal recorded after add/drop with no GPA or earned-credit effect.

Appendix C. Source Map and Preservation Rules

Primary Sources

Source	Authority / Coverage
final project.pdf	Highest authority for team rules, SDLC/OOP/database/UI/originality obligations, deliverables, and deadline.
Project list.pdf	Authoritative project title and seven-area official SUMS description.

Source	Authority / Coverage
Approved Course Knowledge Baseline v1.0	Approved course concepts, rules, source hierarchy, workflow, classifications, and ambiguity handling.
03-requirements.pdf	Requirements meaning, elicitation, scope control, policy/mechanism, and feature creep.
04-usecases.pdf	Stakeholders, actors, goals, system responsibility, and later use-case work.
01-introduction.pdf; 02-lifecycle.pdf; 05-teams.pdf	Engineering foundations, SDLC, staged work, teamwork, decisions, and risks.
06-prototyping.pdf; 07-classdiagrams.pdf; 08-sequencediagrams.pdf; 09-codereviews.pdf	Later UI/UML/quality guidance; no diagrams or implementation are created here.
project example .pdf	Illustrative workflow only; not authoritative over official sources or lecture rules.

Baseline Preservation Rules

- Every approved OCR, STK, CAP, ASM, RSK, and DEC identifier is permanent.
- A change does not delete or overwrite history; it records a new decision with reason and impact.
- Superseded items remain visible and point to the effective replacement.
- Every downstream requirement must trace to this baseline.
- When an upstream item changes, all affected requirements, use cases, database design, classes, UI, tests, schedule, and documentation must be reviewed.
- No implementation shortcut may silently redefine an approved policy.
- No new feature may enter Release 1.0 without scope, source, cost, risk, and approval review.
